30 passed · 0 issues

Home page check: nothing to fix.

What this free check covered

CHECKED HERE

Your home page, read from the outside as any visitor sees it.

NOT CHECKED HERE — THE IN-DEPTH AUDIT DOES

+ Up to 20 inner pages: titles, Google descriptions, forms and dead links
+ Hidden admin, test and staging areas, and exposed files or backups
+ Your database and file storage, safely tested for public access
+ Code libraries matched against known security flaws
+ Email, DNS, domain transfer lock and certificate hardening
+ The exact DNS records to paste, and a prioritised fix plan

Free check: your home page, 30 checks. In-depth audit: 87 checks, every one that applies to your site, on up to 20 pages, with a real-browser visit and exact fixes.

RESULTS BY AREA

SECURITY 13/13

WORKING WELL 13

- Not on Google's unsafe list
- Every file loads securely
- Served through a CDN
  Cloudflare
- Domain renewal in good time
- No open folders
- No signs of hacking or malware
- Security settings are on
- Email spoofing protection (SPF) set up
- No secret keys in your code
- Secure connection (HTTPS)
- Software versions are hidden
- Email spoofing protection (DMARC) enforced
- No private files left public

SPEED & PHONES 5/5

WORKING WELL 5

- Server responds quickly
- Few add-on scripts
- Light page code
- Main content appears quickly
- Works on phones

GOOGLE & VISIBILITY 10/10

WORKING WELL 10

- Clear page title
- Images are described
- Search engine guide in place
- No broken links
- Google description written
- Page language is set
- Sitemap in place
- One clear main heading
- Link previews are set up
- Business details marked up for Google

PRIVACY & TRUST 2/2

WORKING WELL 2

- Easy to contact
- Privacy policy in place

This is a single run; website speed can vary by about ±10 between tests.

A quick automatic check of your home page, read from what any visitor can see at the time of the check. Nothing is estimated or written by AI, and nothing on your site was changed.

YOUR NEXT STEP

Your home page is clean. Riyo Site Monitor keeps watch and emails you if anything changes: free for 14 days, then AUD $9.99 a month.

Fix it yourself: the in-depth audit (AUD $149), with a free re-check within 30 days.
